News reached here yesterday of the killing of a negro by the engine on the railroad a short distance from Pinewood. The name of the victim is unknown to us. He was walking the track ahead of the engine and when warned by the whistle of his danger, instead of jumping from the track, he started off in the engine car and was killed by the wheels. Some of the people down here have evidently not gotten used to the steam horse yet.
It will pay you to call in and see my new stock of Machines. Respectfully, B. E. Bryan.

Deaths.
The sad news reached us yesterday of the death, at his home in Gainesville, Fla., of William Colclough, son of the late Capt. S. E. Colclough of Camden and nephew of Mrs. J. J. Bussard, of this city.
After his graduation from the University of the South, the deceased moved to Gainesville, Fla. Only a few months ago his engagement and approaching marriage with a young lady of his adopted city were announced to his many friends and relatives here. To-day he lies beneath the sod of a strange State. Through a letter from his grandfather, Col. Wm. A. Colclough, we learn that his death was from fever, after a very brief illness, at the house of his affianced bride, where every attention and service that love and skill could employ were given him: but in spite of all, the wedding chimes are hushed to silence by the tolling bells and the flowers that were to have adorned the union for the newly-laid upon his bier. To the family and relatives of the deceased we tender the assurances of our deep sympathy.
Religious.
Rev. James McDowell will not fill his pulpit at Tirzah on 2nd Sabbath. Services might be expected on 5th Sunday at 11 A. M. and at 8 P. M.
The 30's R. R. to be Completed.
Col. J. D. Blanding who is at present on a visit to Kentucky sent us a copy of the Louisville Courier-Journal, from which we take the following item:
The firm of McDonald, Shea & Co. composed of Memphis and Knoxville parties, has received the contract for the completion of the entire unfinished part of the Charleston, Cincinnati and Chicago road between Marion, N. C. and Minneapolis, Va. The estimated cost of the work is over \$2,000,000. The line runs through the richest mineral belts of Virginia, North Carolina and Tennessee. It will connect the celebrated Crabtree mine of North Carolina with the Flat Top coal region of Kentucky.

The Graded School.
Sumter is now equipped with educational facilities that give her rank with any city of her size in the State. The Graded School supplies a want which has been sorely felt heretofore. The teachers are all experienced and accomplished scholars, well versed and practiced in these methods of teaching which now obtain in the schools of the North and West. As will be seen by reference to the advertisement in another column, the limits of the school district have been placed so low as to be easily within the reach of all. The adjunct departments of music and art, while these branches are not yet a part of the curriculum of the school, afford opportunities to pupils for acquiring these polite accomplishments on terms far below the customary prices. The school ought to be and will draw patronage from the parents of the city and will keep at home the boys whose parents have been obliged heretofore to send elsewhere to be educated.
The circulars of the above school printed and made up at this office is a fair specimen of our work, and cannot be excelled anywhere.
The Electric Lights.
We publish below the places where Electric Lights will be mounted about the city.
The work of the Company is going bravely on. Under the superintendence of Mr. Carr, contractor, the plant will soon be ready for use. By the 25th Oct. the date stipulated in the contract the city will be lighted by electricity and our gas lamps which have been already to look contemptibly mean and little will permanently take a back seat.
